

Inland Community Eye Health Care Program Free The Oppressed
Report 2020 September To December

The community eye health care program Free The Oppressed in Karen state—the eye mission in Karen state in this years we have very low activity because of (Covid19) every country have transmitted and very danger in our life , the corona virus transmitted Thailand and Myanmar - Thailand can control their community people so very low number of corona virus, Myanmar they can not control their community people the virus more and more. the border close for 10 month we can not easy crossed the border but we do that our eye activity. We go the area that safety place we can not go danger area.
