

Cross Border Community Eye Care Program Free The Oppressed Report – July -2022

The community eye care program, Free The Oppressed– by continually providing eye screening and treatment in the Karen state. along Thai and Burma border. Due to the political instability across Burma ,Even though we are in a hard time from civil war and a disturbance of the Covid-19 pandemic, any time we organized the eye mission, we received a lot of patients coming from different regions to assess the treatment. although the fighting is happening near their area and the journey is not safe However with the hope they try to come till arriving at our plan.

Earlier we had a discussion with Mae La Camp leader to arrange an eye mission and the plan had been implemented .However for the later discussion we had to postpone the mission because the thai authority rejected our request but we had to find another way people in camp can received the eye care, because many eye problem in camp.

August 2022 only one month I will take holiday and prepare the next eye mission before the end of 2022.
